

NUTRIENT MANAGEMENT (CSP Enhancements)

November 2005

Enhancement Activity Task Sheet

WV-CSPENM-TS

Clients Name:

Worksheet 3- Phosphorous Reduction

Payment = \$2.00/Acre/yr to plant all crops (row, hay, pasture) 100% no-till to reduce phosphorous runoff. Plantings will be made into prior crop residue with minimal inversion of the residue. Use this (or similar) table to document location and incorporation method used.

Tract & Field #s or Names	Acres	Crop Planted	No-Till Planting Date	Planting Equipment Used

Phosphorus Reduction Certification

I certify that I have established a crop in the field(s) listed in the table above using a no-till procedure.
